D-Mitri 5.5.6 DCM-4 FPGA 5.5.6.1 Update

SOFTWARE COMPATIBILITY

This firmware version is compatible with CueStation 5.5.6.

UPDATES / FIXES

- Fixed issue related to DCM-4 module FPGA programming that in some instances would cause matrix signal routing to be interrupted between Input Channel Bus assignments and Buses 193-288.

KNOWN ISSUES

- Once updated, the DCM-4 module reports this update has been successfully applied by displaying "DCM4, Oct 24, 2023" on the rear panel OLED, which is the only indication.
