

SERVICE POLICIES

The Service Departments at Meyer Sound provide assistance to Meyer Sound customers who require repairs or upgrades to their units. Our highly trained technicians and driver evaluation team strive to assure the highest level of product quality, maximize consistency and reliability of products in the field, and ensure user satisfaction and success.

Meyer Sound designs and manufactures products to the highest standards to meet exacting performance requirements. If you encounter a problem operating your system, please contact Meyer Sound Technical Support.

If the troubleshooting process indicates that the unit must be returned, please follow the instructions in the section entitled *Obtaining a Return Authorization*.

OBTAINING A RETURN AUTHORIZATION

If a Meyer Sound product must be returned, please contact the nearest service department (see *Contact Information* below) to obtain a Return Authorization number (RA).

Have the following information available:

- Model number of product
- Serial number
- Part description, or part number if modular
- Detailed problem description, including ways to duplicate the failure, conditions under which the unit failed and any intermittent performance issues
- Company name and contact person with address, phone number, and email address

When you have the RA number and shipping address, please follow these instructions:

1. If possible, pack the returning-for-service items in the original shipping container. If the original packaging is not available, pack items carefully in 2-ply cardboard boxes with bubble wrap and over-pack. (Please do NOT use Styrofoam peanuts.) Pack products as if you expect them to be mishandled.
2. Meyer Sound cannot be held responsible for any damage incurred in shipping. Meyer Sound suggests obtaining shipping insurance.
3. Include paperwork with the above information INSIDE each package.
4. PLEASE do NOT include power cords, cables, grilles, grille foam or the product's Operating Instructions unless specifically requested to do so. Meyer Sound does not need these items in order to perform repairs.
5. Write the RA number on the outside of your packages.
6. Please ship freight pre-paid.

SERVICE POLICIES

High Frequency (HF) Drivers

If you have a problem with a high frequency (HF) driver, please have the model and the serial number of the driver available, and contact the service department for a Return Authorization number (RA) in order to return the driver to the factory or service center for evaluation of warranty status and rebuildability. If Meyer Sound determines that the driver has failed under warranty conditions, we will replace the driver with an exchange HF driver at no charge.

If the HF driver is out of the warranty period or we discover that it failed due to circumstances other than a manufacturing defect, a replacement driver must be purchased. If the motor of the HF driver is rebuildable, we will sell an exchange driver at the rebuilt price.

NOTE: We MUST receive a rebuildable HF motor in order to offer exchange/rebuilt pricing on a replacement driver.

We do not sell exchange drivers outright; we must first receive a rebuildable driver in order to offer an exchange.

If the HF driver is not under warranty and not rebuildable, a new replacement high frequency driver should be purchased.

Low Frequency (LF) Drivers

If you have a problem with a low frequency (LF) driver, contact the service department; please have the model and serial number available. If the driver is within the warranty period, Meyer Sound will assign a Return Authorization number (RA), so that you can return the driver to the factory for evaluation within the stated warranty period. If Meyer Sound discovers that the driver has failed under warranty conditions, we will replace the driver at no charge to the customer.

If the LF driver is out of the warranty period, a new driver must be purchased.

If Meyer Sound discovers that the LF driver has failed due to circumstances other than a manufacturing defect, then a replacement LF driver should be purchased within the stated warranty period.

There are no exchange or rebuild options for LF drivers.

THIS POLICY IS SUBJECT TO CHANGE.

Electronic Repairs and Module Replacements

If you have a problem with an electronic product or electronics module, please contact the service department for a Return Authorization number (RA) in order to return the unit for evaluation, repair or replacement. Please have the model, serial number and a detailed problem description available.

SIM, Galileo, and GALAXY Products

If you have a problem with a SIM II, SIM 3, Galileo, or GALAXY product, please contact the service department for a Return Authorization number (RA) in order to return the unit for evaluation and repair. Please have the serial number and a detailed problem description available.

CAL and D-Mitri Products

If you have a problem with a legacy CAL or D-Mitri product, please contact the Service department directly, and they will advise. Please have the serial number and detailed problem description available.

HD-1 Studio Monitors

If you have a problem with an HD-1 monitor, please contact the service department at Meyer Sound Germany or Meyer Sound Berkeley for a Return Authorization number (RA) in order to have the HD-1 monitor(s) returned for repair. Please note, only the service centers in Berkeley and Germany service HD-1 monitors.

The HD-1 monitor is a high definition studio monitor used in critical listening, and we do not sell any parts for this product. After repair and/or driver replacement, the monitor must be recalibrated in an anechoic chamber to a reference trace.

NOTE: HD-1 monitors are not calibrated in pairs but calibrated to a reference. Any factory spec HD-1 monitor can be used with any other factory spec HD-1 monitor with seamless representation.

Product Abandonment

Any item not claimed within ninety (90) days after notification from Meyer Sound that the item has been serviced will be treated as abandoned property and may be disposed of in accordance with applicable law.

PRODUCT WARRANTY STATEMENT

All Meyer Sound products, and the parts thereof, are warranted to be free of defects in materials and workmanship at the time of purchase for the following warranty periods:

FIVE (5) YEARS for all Meyer Sound products purchased after after January 1, 2018, including B-Stock.

THREE (3) YEARS for all Meyer Sound products purchased before January 1, 2018.

ONE (1) YEAR for all Meyer Sound products that were Discontinued* at the time of purchase, including B-Stock.

* **NINETY (90) DAYS** for all repairs.

* See website for [Current Production models](#) and [Discontinued products](#).

The warranty period will commence on the date of purchase. The date of purchase shall be considered the date the product is shipped.

Within the period of its warranty, Meyer Sound or an Authorized Service Representative of Meyer Sound will replace or repair at no charge at its service facility any Meyer Sound product or part thereof that is defective in material or workmanship. This warranty does not apply to normal wear and tear to the warranted product (including weather related wear and tear), or defects arising from any action or failure to act by any person

or entity other than Meyer Sound, including without limitation defects caused by improper use or installation, neglect, abuse, or accidents. This warranty shall be void if the covered Meyer Sound product is modified or altered without written authorization from Meyer Sound, or if the covered product is not installed, connected and operated within the safety limits described in the product operating instructions.

Meyer Sound may use reconditioned parts for warranty repairs. Any reconditioned replacement parts used in warranty repairs will meet Meyer Sound's quality standards and are warranted for the remainder of the original warranty period.

Warranty claims must be received by Meyer Sound within the warranty period. Warranty claims are made by notifying Meyer Sound's Service Department in Berkeley, California USA of the claim and the reasons for the claim and requesting shipping instructions.

If, after a warranty claim is made, Meyer Sound determines that there is no defect in the product or part thereof, or that the defect is not covered by this warranty, Meyer Sound shall advise the warranty claimant in writing of its determination and, if requested by the warranty claimant, shall provide the warranty claimant with an estimate of the cost of any needed repairs.

Meyer Sound neither assumes nor authorizes any representative or other person to assume for Meyer Sound any other liability in connection with the sale or any shipment of Meyer Sound products.

TO THE MAXIMUM EXTENT PERMITTED BY LAW, THIS EXPRESS WARRANTY AND THE REMEDIES SPECIFIED BELOW ARE EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES AND REMEDIES. MEYER SOUND MAKES NO WARRANTY OR REPRESENTATION THAT ITS PRODUCTS WILL OPERATE ERROR FREE OR WITHOUT PROBLEMS OR INTERRUPTION, AND EXPRESSLY DISCLAIMS ANY IMPLIED WARRANTIES INCLUDING WITHOUT LIMITATION IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

MEYER SOUND'S LIABILITY UNDER THIS PRODUCT WARRANTY SHALL BE LIMITED TO THE TOTAL PURCHASE PRICE FOR ANY WARRANTED PRODUCT. MEYER SOUND SHALL HAVE NO LIABILITY FOR ANY LOSS OF USE, INTERRUPTION OF BUSINESS, LOST PROFITS OR GOODWILL, OR FOR ANY SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY KIND ARISING FROM THE PURCHASE OR USE OF MEYER SOUND PRODUCTS, EVEN IF MEYER SOUND HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH LOSS, INTERRUPTION OR DAMAGE, AND REGARDLESS OF THE FORM OF ACTION, WHETHER IN CONTRACT, TORT, STRICT LIABILITY OR OTHERWISE.

If Meyer Sound changes or makes improvements to its products, it shall not be obligated to upgrade previously purchased products to which the changes or improvements were made.
